Weebly Metacognition

Check each step when completed.

1. _____ Summarize and give an example of Metacognition with the text you already wrote in your "Metacognition Copy" assignment.

2. _____ Link the button to your "tricks" page by clicking the link symbol (it resembles a sideways eight).

3. _____ Add the past, present, and future things you wrote by clicking the "Paragraph with Picture" and dragging it down 3 times.

4. _____ Organize your "tricks" page by opening the page ("Pages" tab) and dragging down the "Paragraph with Picture." Label the category "Reflection." Hint: You already wrote this copy in your "Metacognition Copy" assignment.

5. _____ Consider making your own illustrations in Art.

6. _____ Have another Metacognition strategy that works for you? Bet you can think of several.

7. _____ Add photographs or illustrations that convey your message. All photographs must be highly relevant to content and approved by a teacher (i.e. avoid celebrity photos and sexually suggestive or violent images). Hint:

Your design will look better if you use easy-to-read-font, similar colors, and complimentary picture sizes.

As you learn new strategies feel free to add them.

You'll finish your Metacognition section with an example assignment from one of your classes, hobbies, or therapeutic assignments.
